# VETTA

operator chair

*Tecnodent new trailblazing operator chair, that redefines the concept of ergonomics and performance.*

# VETTA

## operator chair

The name **VETTA** comes from Bolognese dialect, home of Tecnodent, and means "back" – embodying the chair's core mission:  
*to support correct spinal posture.*

**Hands-Free Adjustment:** Patented elbow-operated controls allow seat and backrest tilt adjustments without hand contact, ensuring a sterile environment and continuity of the treatment.

**Enhanced Comfort:** the innovative seat design reduces pressure and overheating, while the high-quality upholstery is made with seamless leatherette and high-density memory foam padding, for extended ease.

**Spine Support:** Designed to maintain correct posture, preventing strain and enhancing well-being. A footrest ring is available as an option for added comfort and support.
